PRICE THREE CENTS

WORSE!

A New Strike All Along the Line.

People Afraid to Call Their Souls Their Own--Bad Condition of Affairs.

Eight Hundred Railroad Workmen Struck --Drinking Heavily and Arming Themselves with Clubs.

THE GOULD STRIKE.

Texas People Afraid to Call Their Souls Their Own.

By Telegraph to THE SENTINEL.

FORT WORTH, Texas, March 16.—The Knights of Labor have the upper hand here. The boarding houses and hotels which accommodate the men who take the strikers' places, are being boycotted, even the butchers refusing to sell them meat. John Tagart, a boarding house keeper, was boycotted yesterday. The waterman refused to sell any more water to him. His landlord ordered him to vacate the house yesterday. Some poison was thrown into Tagart's water barrel and one married woman and two little girls were poisoned and now lie in a critical condition. The people here are afraid to call their souls their own.

NO SETTLEMENT LIKELY.

ST. LOUIS, March 16.—Hopes for a settlement of the strike on the Gould southwest system seem no nearer realization this morning than since the knights laid down their tools and ceased work, and the fact that the company did not attempt to start any freight trains yesterday is explained by a desire to conform to all legal requirements before making the effort. Application was made yesterday for police protection and it is expected that an attempt to move freight will be made to-day.

DENISON, Tex., March 16.—A petition is circulating for a meeting to pledge support to the officers of the law in case they are called on to protect property.

DRINKING HEAVILY AND ARMED WITH CLUBS.

CHICAGO, March 16.—The Evening Journal's Clinton, Iowa, special says 800 track builders of the New Chicago, Burlington and Northern railway have struck. They compelled the engineers and firemen of construction trains to leave their cars. The company is paying off the strikers and they are drinking heavily and are all armed with clubs.

JOINED THE STRIKE.

MARSHALL, Tex., March 16.—Thirty men brought here yesterday to work in the shops claimed to have been deceived and joined the strikers.

ARMING THE OFFICERS.

GALVESTON, March 16.—A special from Shreveport says that United States Marshal Regan sent a request to railroads to purchase a number of Winchester rifles for his deputies. Several were purchased last night.

FAILED TO GET OUT.

ST. LOUIS, March 16.—An attempt to send out the Kirkwood accommodation this morning failed, the fireman deserting the engine before it was attached to the train, and the engineer returned to the round-house. No attempt has been made to resume freight traffic. No strike occurred among the disaffected switchmen at East St. Louis.

HE REPLIED "STRIKE!"

CHICAGO, March 16.—Vice-President Potter of the Burlington and Missouri railway, having been telegraphed by the striking Knights of Labor that the Knights on the Burlington would strike if his road did not stop doing business with the Missouri Pacific. He replied "strike!"

OMAHA, March 16.—It is rumored here that the Knights of Labor have ordered all employees of the Missouri Pacific in Omaha to refuse to handle freight or perform other duties and that the order will go into effect to-day.

THEY ARE OUT.

OMAHA, March 16.—Knights of Labor on the Missouri Pacific here are out, and no freight trains are moving on the Nebraska division.

Real Estate Transfers.

Olde Bros., real estate agents, room No. 8, Foster block, report the following recorded real estate transfers:

Henrietta Schmidt to John C. Lehmer, by warranty deed, part of lots 1 and 2, Phillip's addition.

The morning papers don't seem to be particularly struck on the Salvation Army. The Salvationists will find Fort Wayne a pretty tough town.

Sprains and bruises are cured by St. Jacobs Oil, the conqueror of pain.

YOU CAN'T HURT ALFRED! A Wild Eyed Western Correspondent Calls Him a Mugwump.

The Washington correspondent of the Las Vegas, New Mexico, *Optic* evidently don't like our distinguished fellow townsman, the Hon. A. P. Edgerton. In a recent communication to his paper he paints the following picture:

"An interview with Mr. A. P. Edgerton, of the civil service commission, made me hot. He went on to say that when in congress from Ohio, back in the forties, no applicant for a position in the departments, secured his assistance or encouragement. In his judgment a young man had better go west. Then he flung in several sentences, or the reporter did for him, comparing the departments to cormorants, or something of that sort, feeding upon the lives of the employee. Mr. Edgerton is a democratic mugwump.

I remember standing upon the south steps of the interior department one day last spring with Vice-President Hendricks when he said to me.

"While at the head of the land office under President Pierce, I never turned an Indian away who applied for a position. I invariably provided for them."

"How did they turn out?" I asked.

"As well as in any other clerical service," he answered. "All the talk about the departments having a blighting or enervating influence upon employees is overstated. It is safe to state that as large a per cent. of them do well, or succeed in what we term 'getting on in the world,' as the same number of persons engaged in similar callings. There are gentlemen of scholarship, property and influence in every section of the country whom I have assisted."

On another occasion, speaking on the same subject, Mr. Hendricks said that the recollection of his life, affording him the most pleasure, was having assisted young men. Mr. Hendricks, now that he is gone, the country realizes, was a miracle of generosity in the way of extending a helping hand.

Mr. Edgerton is a clever, faultlessly dressed, venerable gentleman, with a rather college professor cast of countenance. As aforesaid, along back in the forties, he represented an Ohio district in congress. After serving one term he retired from public life and took up his residence in what was then the back woods. Mr. Edgerton became a citizen of Fort Wayne, Ind., and a large holder of wild lands. This reality, by virtue of other people's labor, gradually enhanced in value and Mr. Edgerton after awhile got to counting his wealth by the hundred thousand. He was born of rich, but honest parents. In the beginning they trained him up in college. He is a perfect master of syntax and by measuring the shadow can cipher out the height of a tree. He can figure things and straighten out the moods and tenses of a sentence, however complicated. Mr. Edgerton was well married in his youth, and happily fathered in his mature years, of large influence in the neighborhood in which he resides, respects, thanks God that he is not as other men—low-down fellows whose education was neglected and who can find no congenital company out of the saloons. The son of one of Mr. Edgerton's renters might loose but little gathering on to the civil service.

WHAT WE HEAR.

The News of the Neighborhood Gathered Here.

Clark county farmers have commenced sowing oats and planting potatoes.

Martin Edin, of Anderson, died from injuries received by being gored by a bull a week ago.

District Attorney Lamb has gone to Washington to look after the confirmation of his nomination.

The Sarven wheel works, at Indianapolis, employ three hundred men, and are running eleven hours a day, at eleven hours' pay, with more orders than they can fill.

At Columbus Edley Tooley, a man forty-five years of age, while in a state of intoxication, fell from a high embankment into the river, near the water works, and was drowned.

Shubal Julian, an uncle of Judge J. B. Julian and Hon. George W. Julian, died at Cadiz, Henry county, last Friday, at the age of ninety-four. He was a native of North Carolina.

Three Hanover students attempted to come to Madison in a skiff Saturday afternoon, but the boat was swamped.

The morning papers don't seem to be particularly struck on the Salvation Army. The Salvationists will find Fort Wayne a pretty tough town.

Sprains and bruises are cured by St. Jacobs Oil, the conqueror of pain.

an hour, they were picked up by the steamer Fleetwood and brought to Madison. It was a narrow escape from drowning, as the river was very rough.

George W. Pate, a township trustee, who reported he had been waylaid and robbed at Rising Sun of \$2,500, is said to be deeply in debt, and an investigation of the alleged robbery will be made.

The residence of Hon. H. S. Biggs, of Warsaw, came very near being the scene of a fire at about noon yesterday. Quite a hole was burned in the roof, but fortunately the flames were subdued before much damage was done.

The two-story frame residence of Rev. E. A. Hoon, situated just west of the city limits of Kokomo, was burned Saturday. The fire originated from a defect in a pipe. Mr. Hoon estimates his loss at \$2,000; insured for \$1,200.

Mrs. Mary Coulter, whose maiden name was Perry, and who claims relationship with Commodore Perry, is now living in Russiaville, Howard county, and is said to be 116 years old. She is said to have been born in April, 1770.

Sam Archer, the last of the gang arrested, is said to be the worst of the lot, and almost every crime in the calendar is laid at his door. He has a brother in the house of refuge, and a brother and sister in jail at Paoli, charged with stealing.

Mrs. Belle Evans, a young married woman at Lafayette, suddenly became insane. In one of her freaks she conceived the horrible idea of offering a sacrifice, and seizing her four month's old infant, undressed it and was about to proceed to carry out her intention when the fortunate arrival of her father put a stop to her plans.

The late Hon. Oliver P. Morton said in the senate once: "Therefore, sir, all these constitutional arguments denying to the president the power of removal, and insisting that that power is vested by the constitution in the senate and president jointly, are of no more importance than a mere display of Chinese fireworks in the presence of a real battle."

Dr. Munhall, of this state, but at present in Oregon, relates that while on the steamer, just before arrival at the dock, one man, speaking to another said: "Well my friend, we shall arrive in Portland just in time for you to go to church." "Oh," said the other, "I do my church-going by proxy." The doctor then spoke up and said: "Yes, and you'll go to Heaven by proxy, also."

Egg socials are becoming popular in Indiana. Every young lady brings an egg along, writing her name on it. Each young man draws one of these eggs out of a bag, and must act as an escort for the young lady whose name is inscribed on the egg he draws. When the young men compare notes, such remarks as these may be heard: "Say, what luck did you have?" "Did eh? Gosh blame the luck, I drew a stale one. My girl is homelier than hedge fence." "Oh, but didn't I pull a fresh one, though? She's the prettiest girl in the whole house," etc.—Richmond Palladium.

The most annoying nuisances in the world are those people who boast that they always say just what they think, says the Richmond Palladium, and they lie when they make such a boast. There is no more use in telling a man he is an idiot because he is one, than in eating mud because there is mud. These what-they-think people are easily analyzed. They are composed of four-fifths of conceit and one-fifth of common sense, and the latter is buried in the former. It is not deceit to speak pleasantly to a fool or to one whose conduct is displeasing. It is courtesy. A few Richmond people might ponder over this.

Cap. DeWitt Wallace, of Lafayette, has written a new novel. The book, which is pronounced a meritorious production, in fact, away above the average by those who have been fortunate enough to see it, is destined to produce a mild sort of sensation in Lafayette, where many of the characters portrayed under fictitious names, of course, will be easily recognized, as portraits of a number of citizens, some of whom will be greatly flattered by the likeness, and others, it is claimed, will be inclined to look upon their "counterfeit presentation" as quite the reverse of flattering.

No doubt the book will meet with a large sale there, and be read with an unusual zest.

Less than one bottle of Athiphosphorus completely cured me of rheumatism, and I have not had the least indication of a return of the painful disease, the cure being perfect. I regard it as invaluable.

Rev. C. Hartley, Huntley, Ill.

WIDOWS

Pensions Increased to \$12.00.

The Ways and Means Committee Report in Favor of Morrison's Lumber Bill.

Oberly, of Illinois and Lyman, of Connecticut, Appointed Civil Service Commissioners.

WASHINGTON.

Morrison's Tariff Bill Under Consideration.

By Telegraph to THE SENTINEL.

WASHINGTON, March 16.—The committee on ways and means in considering the Morrison tariff bill, agreed to make provisions as to lumber, by a strict party vote—eight to four republicans voting negative.

The senate passed the bill to increase the pensions of widows and dependents relatives from \$8 to \$12 a month. It now only requires the signature of the president to become a law.

HOUSE.

The house committee on foreign affairs, by a vote of 7 to 6, postponed the consideration of the Morrow Chinese bill and will, instead, take up the president's message, recommending the payment of indemnity to China for outrages perpetrated on Chinese subjects in this country.

Brownie, of Indiana, offered a resolution for the investigation of the charges of corruption in connection with the appropriation for the Jeffersonville levee. Adopted.

A bill was introduced by Mr. Townsend to increase the pensions of persons who have lost an arm or leg. Also, one by Mr. Bynum granting to the widow of Vice-President Hendricks one year's salary of his office, less the amount paid him in his lifetime.

APPOINTMENTS.

Two new Civil Service Commissioners Appointed.

By Telegraph to THE SENTINEL.

WASHINGTON, March 19.—The president-to-day sent these nominations to the senate: William L. Trenholm of South Carolina, now a civil service commissioner to be comptroller of the currency vice Henry W. Cannon, resigned; John H. Oberly, of Illinois, to be civil service commissioner vice Trenholm; Charles Lyman, of Connecticut, civil service commissioner, vice Dorman B. Eaton, resigned.

ATTENTION, FISHERMEN.

A gentleman by the name of Bress, who lives near Defiance, Ohio, says fish are so plentiful at the large dam near that city that if you drop a dip net in the water and leave it remain ten minutes, it is about impossible to raise it out of the water on account of the fish it will contain.

He says that if the people of Fort Wayne would compel the owners of the Defiance dam to comply with the law, and erect fish-ladders and the people who own the dams at or near Fort Wayne would do the same, the river would be full of fish. Before the dams were erected the Maumee river was full of fish, and no better fishing grounds could be found anywhere. We hope our fishermen will do something in this matter.

Some lawyer at Defiance could be employed for a small amount, to see that the law was enforced. Ohio, like Indiana, has a very strict law, and if it was only enforced we would not have to go away for good fishing.

Miss Katie Hogan, who died on the 13th inst., at the age of eighteen years and eight months, was a daughter of Michael Hogan, deceased, and Catharine Hogan, and a niece of Timothy Hogan, ex-councilman from the Sixth ward, and also ex-commissioner of Allen county.

She was a very obedient and affectionate daughter, loved and respected by all who knew her. She died as she lived, a devout Catholic, after receiving all the consolations and sacraments of the church.

Her funeral, which was largely attended, took place from the cathedral on the 15th inst., at 9 o'clock a. m., where High Mass was celebrated. May she rest in peace.

The bread wagon owned by Geller, the Broadway Baker, met with a serious mishap on the corner of Broadway and Calhoun streets this morning. It was almost completely demolished in a collision.

The Sunday school workers of Fort Wayne should not fail to attend the meeting to-night.

Mr. George E. Crall, of San Francisco, California, is in the city visiting friends and relatives.

An Outrage by a Tramp.

On Sunday morning a seedy looking tramp called at a residence on Erie street and asked for his breakfast. The lady of the house was alone at the time, her husband having just gone out to the wood house, which fact was unknown to the tramp. The knight of the road was handed a piece of bread and butter, which he indignantly threw on the floor at the lady's feet, and demanded a warm meal. At this stage the husband entered the house and seeing the lay of matters, sailed in and in less time than it takes to tell the story, the filthy creature was measuring his full length on the floor, after which he was promptly kicked into the street. These vagabonds make their headquarters in the old husk factory during the night, and during the day go forth, after the men of that section have gone to work, to commit depredations and frighten women and children. The police should visit this den and drive them out with hickory switches.

Good Bye, John!

There is a rumor to the effect that Col. John C. New, the veteran editor of the Indianapolis Journal, says the Chicago News, contemplates retiring from journalism. He has been in active professional and political life for half a century and is now anxious to seek repose and recreation. This has been his earnest desire for several years, and it was emphasized when the republican party was defeated in the national campaign of 1884. Col. New has been wishing to purchase a plantation on the James river in Virginia; a retired country life is now the height of his ambition. He has been practically out of the harness for more than a year, having intrusted the conduct of his paper to Maj. Halford and his son, Mr. Harry New.

Monroeville Items.

Correspondence of THE SENTINEL.

Politics is on the hop and candidates are bobbing up.

The schools of Monroe township are all closed with the exception of two.

John Rose has just received an imported Norman stallion, which he says cost \$1,500. John is a celebrated horseman and the owner of the once famous trotter, "Billy Rollins." Mr. Rose had "Billy" on exhibition at the last Allen county fair, but on account of his extreme age he was not entered to compete in the races.

A. B. Mondorf has moved his saloon and higher at \$1,500 for May. Corn, lower at 39¢ for April. Heavy moderate business. No. 2 rod, April, 95¢; No. 3 rod, 125¢; No. 4 rod, 145¢; No. 5 rod, 175¢; No. 6 rod, 200¢.

CHICAGO MARKET.

CHICAGO, March 16.—Wheat unsettled and higher at 84¢ for May. Corn, lower at 39¢ for April. Oats a shade lower at 31¢ for May. Rye, 57¢. Barley, nothing doing. Whisky, \$1.14. Pork, stronger at \$0.37¢ for May. Lard, stronger, at 86.02¢.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and can not be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold by all Druggists. **ROYAL BAKING POWDER CO., 106 Wall-st., N.Y.** may 22dawly

THE FASHIONS.

An Interesting Letter from Jenny June on the Prevailing Modes.

TULLE SKIRTS AND TOILETS.

Inexpensive Spring Outfits—The Thrifty Woman's Way—The Ulster and the Jacket.

Of late the low bodice has been restored to almost its old supremacy in evening toilets. It is becoming as absolute "full dress" for ladies as the "swallow-tail" coat for gentlemen; and the majority are cut "round;" which was all very well when the shoulders sloped off over the arms; but is not at all becoming now that the sleeves are brought up to the top of the arms; and the distance annihilated between it and the edge of the bodice.

Tulle skirts and toilets have been heretofore mainly confined to the young ladies of a family, but English influence is seen in the dark tulles, plain and embroidered, with velvet and satin bodices, which have been worn even by chaperons. These tulles are often made over satin: the outer shades over pink, tea rose over canary, black over orange or nasturtium, the bodice of satin matching the foundation skirt, and rarely displaying any ornament, save a row of colored pearl beads upon the edge and festoons of the same or a group of feathers upon the shoulders. The skirts are made skirt upon skirt and are draped off from the front, not looped in, in all sorts of pretty, graceful ways, with few flowers, however, and not much in the way of ornamentation except feathers with Rhine stone clasps or beaded agates. Some ladies take the cheap tinsel ornaments sold at the fancy stores for the decoration of plaques and baskets and apply them; giving their toilets the appearance of perambulating scrap-holders.

THE USE OF BEADS

is the most curious feature of the time—it would hardly be correct to say of the season—for they have been used for several seasons past, though not until lately in the "rosary" forms; and they will be still more pronounced in the season to come. The prevailing styles are rosary and pearl beads; the former colored in every shade to match millinery as well as dress fabrics; the latter colored also, but not to the same extent, as the natural colors and carving still maintaining the lead. The use of them is likely to be much more extensive than beaded embroidery trimmings, because these latter are costly, and the larger beads can be employed effectively in outline and other ways, by ladies who have not time or skill for embroidery. Semi-precious woods are being sought for, on account of their blending of color and close graining, in the making of fine rosary beads and the new cherry buttons, some of which have made their appearance upon rich imported costumes. But the difficulty is to find tools or machinery to cut them. Nothing more beautiful than the agatized and jasperized woods recently discovered in this country can be found in the world, and there are forests of them. But so far the wood has been sent to Oberstein, in Switzerland, to be cut, turned and made into objects of use or ornament; because we have not the requisite machinery or workmen here. There are fortunes, however, in the utilization of these beautiful woods for clasps, buttons, beads, writing-table knick-knacks, and other accessories.

EXPENSIVE SPRING OUTFITS.

There are plenty of opportunities for the acquisition of a wardrobe costing very little money, by those who know how to take advantage of them. Materials were never so low in price as now; and the variety has become so great, the confusion of ideas so universal, that even the conventional woman who always wants the "latest" thing gets mixed, and finds it hard to distinguish between what was the novelty of yesterday and what the novelty of to-day; particularly as the new thing of to-day was the old thing of yesterday. Under these circumstances, with the very best intention of sacrificing herself to cost and fashion, the conscientious lady sometimes finds herself pleasing herself in an economical and highly satisfactory way. Doubtless she feels that such a purchase carries a sense of inadequacy to her position and principle, for when it is admired she always confidently says: "You would not believe it my dear, but I only paid so much, and, really, it is quite a good thing, don't you know?"

THE THRIFTY WOMAN'S WAY.

But this is not the style of the truly thrifty and bargain-loving woman. She carefully studies styles in order to make the costume—the material for which will cost her from \$10 to \$15—look like an "imported" one at from \$60 to \$75. She is always spoken of as a woman who "dresses a great deal" because she has a bonnet to match every suit and a dress proper for every occa-

sion. The actual cost of all her bonnets is not, however, that of one bought at a fashionable millinery establishment, for she utilizes scraps, buys her frames and a little good, effective trimming and makes them herself. All the materials for a spring and summer outfit, recently purchased in anticipation of a journey and a visit, came within \$50, and may be roughly detailed as follows:

15 yards black satin de Lyon \$18.75
4½ yards embroidered trimming (a bar-gain) 3.25
5 yards beige (45 cent.) 5.75
Silk trimming 1.50
15 yards two shades of blue Scotch gingham (40 cents) 4.80
White embroidered pattern dress 7.50
10 yards brown figured damask (a bargain) 2.00
A black Spanish lace fichu 3.00

\$48.50

FIVE HANDSOME COSTUMES.

This will give the owner practically five costumes; the only one not complete being the delaine, which has a pretty cowslip figure and will be used for the house over a brown silk skirt—already in possession. The silk dress will be really handsome and accompanied by a small visite or mantle to match. The trimming is much richer than lace and the additional cost will be only that of fitting and stitching some portions. The black lace fichu will be employed for the street, with gingham in two shades of gray-blue; and with this will be worn also a black straw hat or bonnet trimmed with feathers taken off a winter bonnet. A brown straw bonnet—cost \$1.75—will be purchased to wear with the beige and an ulster for traveling and a black lace bonnet made to wear with the silk, the materials being already in possession; in fact, being *real*, having done duty two summers and upon two different frames previously.

"It is so easy to make up summer clothes," remarks the purchaser of these goods, when displaying them to a friend, "and especially now, when skirts are less complicated and trimmings are ready to your hand. The only dress that will give me any trouble will be the gingham. But I want to lay in an infinitude of small tucks, so as to bring the lines close together; and though it will not be difficult, it will take time and be tedious work." "Just the work it is difficult to buy at any price," remarked the friend. Cottons are very cheap this spring, and 40 cents per yard may be considered unnecessarily high; but the prices that are given are those which were paid, and the Scotch zephyr gingham always retail at the same price. Black silks are offered very low just now, the popularity of the surah, mervilleux and rhadames having seriously interfered with the faille and gros-grains, which formerly had the field nearly all to themselves. No better silks need be desired than the American surahs, valentines, ottomans, and brocades upon ottoman grounds. The which were paid, and the Scotch zephyr gingham always retail at the same price. Black silks are offered very low just now, the popularity of the surah, mervilleux and rhadames having seriously interfered with the faille and gros-grains, which formerly had the field nearly all to themselves. FRUIT HOUSE.

For Sale.

I offer for sale the "Home" bar fixtures, consisting of ice box, two side boards and work board, bar with hand and foot rails and five mirrors. The above originally cost \$1,200, but, to make room for new furniture, will be sold at a sacrifice. Can be seen at any time at the "Home."

1-tf JOHN McCANN.

The Washington Bros. All Star combination packed the Metropolitan theatre to the doors last night, standing room only being on sale. Mr. McCann is working a double company at his popular theatre this week.

The Daily Sentinel

TUESDAY, MARCH 16, 1886.

THE CITY.

To-morrow is St. Patrick's day.
"St. Patrick's day in the mornin'."
Hon. William Fleming and wife are at Kansas City.

The Louisiana lottery drawing takes place to-day.

The Matlack combination went to Tiffin yesterday.

I. L. Wiseman has removed his office to No. 60 Calhoun street.

Scott Reiter contemplates going to Warsaw to work at his trade.

The family of August Langhurst will shortly join him at Nashville, Tenn.

The first Monday in April is the last day for paying taxes without penalty.

Bob McDonald will sport a green ribbon to-morrow in honor of his old friend St. Patrick.

The Fort Wayne decorative works have opened a place of business at No. 141 West Wayne street.

The Little River ditch case is on trial in the superior court, before special Judge Haynes, of Portland.

It will interest Fort Wayne attorneys to know that the state supreme court has adjourned until March 23.

J. H. Branford, Mrs. D. Durham and F. T. Thieme, all of Fort Wayne, are registered at Jacksonville, Florida.

Albion Smith, of Cincinnati, is in the city to-day. He represents the wholesale paper house of Louis Snider's Sons.

Business was suspended in Bluffton last Friday between 2 and 3 o'clock for the purpose of spending one hour in prayer.

The name of the referee in the slugging match in the east end Sunday should have read George Troutman, instead of Trentman.

Eddy, the precocious child of Belle Boyd, generously offered Manager Perry forty cents for his poodle. It is needless to add the offer was accepted.

Nelse Mounir has returned from a trip to see his best girl at Andrews. Nelse now has a "best girl" planted in every voting precinct in this district.

Dr. E. F. Sites can boast of the finest dental operating rooms in the west. He is now located in the Mordhurst building and has his office fitted up in excellent taste.

The children of Jim Summers, whose illness has heretofore been mentioned in these columns are happily considerably improved and may now be considered out of danger.

The Wabash railway company will run a special train out of Indianapolis after the Salvini performance at the Grand on to-morrow evening, to accommodate many out of town people.

The Wodiska company, who are now playing in this city, had an unusual streak of luck lately. They played at Peru last Thursday night, to a \$600 house, the orchestra being forced under the stage to make room for the patrons of the house.

The phrase "inoeuous desuetude" is so much on people's tongues now-a-days that its correct pronunciation is a matter of some importance. The second of Mr. Cleveland's immortal words is pronounced with three syllables, the accent on the first--thus: Des-we-tude.

Hon. M. P. Brady, who is to lecture at Library hall to-morrow night, on the "Irish Question," is a brilliant talker and a great Chicago lawyer. Rev. Father O'Leary has been asked to introduce the distinguished speaker. Those who neglect to attend this lecture will have reason to always regret it.

C. E. Gill, general freight agent of the Grand Rapids and Indiana railroad, has returned from Louisville, where he has been in attendance on the meetings of the Western and Middle states association. A new classification was prepared and adopted by the association and will be promulgated about April 1.

An important secret meeting of capitalists and business men along the Ohio river was held in Madison Saturday night in the interest of the proposed new Ohio river railroad, which, it is said, is backed by the Nickel Plate company, which, if built, will pass through Madison. The result of this meeting is not yet obtained.

The bright red hue of the western horizon, observable last evening, was not attributable to the sunset, nor was any other natural cause the occasion of the display. The fact is simply that Frank Tolson, Tom Warner and Otto Anilker went up to Chicago yesterday, and the red sky was only a reflection of the crimson paint which they are daubing over the village by the lake.

A prominent business man has now in his office two different makes of telephones which it is said will be placed in this city in case the present company chooses to drop out of business. These instruments are claimed by the Bell company to be infringements on their patents, and as there appears to be no other than the Bell instruments it is likely that that monopoly will enjoin their use.

Henry Monning is at Michigan City. "A Fool's Revenge" at the Academy to-night.

The prohibition state convention will be held May 26.

Herman Beverorden is very low with pleural pneumonia.

James Fox & Son have entirely withdrawn from the coal business.

The Fleming Manufacturing company are busily engaged on their annual catalog for 1886.

Sheriff Nelson is engaged in selling the grocery stock of Charles Reese, corner of Berry and Barr streets.

The glove match between Hawksworth of this city and Fred Daily of Grand Rapids, has been indefinitely postponed.

John Lillie and wife returned last evening from an extended trip through the south. Mr. Lillie's health is much improved.

Councilman Wm. Doehrman is the father of a boy baby and in consequence he is giving groceries away at his place of business on Main street.

The Old wagon works are now running full time and have a big force of men at work. Wagons are turned out at the rate of twenty-five per day.

It is probable that C. L. Centlivre will attend the meeting of the National association of brewers, which will be held in San Francisco during the latter part of this month.

The engagement of Mr. Harry Friend of "Friend's Enterprise," and Miss Hatzie Friesburger, the highly esteemed and only daughter of L. Friesburger of the leather firm is announced.

The Very Rt. Rev. Bishop Dwenger has taken out permit to build a church on lots 7, 8 and 9, Ewing's addition to cost \$30,000. This is the new building for St. Paul's Catholic congregation.

W. E. McDermott is taking the testimony in the Burger vs. Grand Rapids and Indiana railroad case, now on trial before Judge Hench. Logan, the court stenographer, is similarly employed in the Little River ditch case being heard by Judge Haynes.

The date fixed for the reunion of the 30th Indiana regiment is the anniversary of the battle of Shiloh, in which that command took a prominent part, and in which Col. Sion S. Bass was mortally wounded. The attendance should, and doubtless will be large. The citizens of Warsaw will extend the survivors a cordial welcome, we feel sure.

Frank Meegan, of Omaha, who spent several days in this city, visiting his relatives, returned home yesterday. He is prospering finely in his western home, being engaged in the produce brokerage trade. A few successful deals he has made recently have netted him a handsome sum. His Fort Wayne friends will always be glad to know of his prosperity.

The Edward Wodiska company opened a three night's engagement at the Academy last evening and presented the "Lady of Lyons." Mr. Wodiska has a very keen conception of the character of Claude Melnotte, while Miss Marshall shares equal favors as Pauline. The balance of the company are very good, and the house should be well patronized. To-night they will play "A Fool's Revenge."

Mr. Henry N. Helfrick, of Gallion, Ohio, has removed to Fort Wayne, with his family and will take up his residence on Wall street in a few days. He is a musician of considerable talent, and will play an instrument in Speigel's band. His place of business will be the well known boot and shoe establishment of Mr. Nonnamaker, No. 5 Keystone block, where he will be employed in the custom-work department, and has the reputation of being a first-class workman.

Rev. Sam Jones is getting there Eli, and don't you for a moment forget it. The people of Chicago laughed in their sleeves when he arrived with his canvas-covered grip sack from the south. They laughed in a still higher key when he failed to draw a big house. But Mr. Jones has barely preached ten days and they now have no building in the city big enough to hold the crowds. Last Sabbath afternoon six thousand people arose for prayer. Mr. Jones is a wonderful man and though the truth, uncovered and made plain, sounds harsh and seems to shatter the nerves, it is the only way to bring some people to Christ. We hope an effort will be made to bring him to Fort Wayne.

Judge LaRue, of Lafayette, gave his decision yesterday in the suit of the mortgagees of A. Salinger against Salinger and his other creditors. The judgment was in favor of the plaintiffs on every count. The unprotected creditors included as defendants in the complaint set up in defense that the claims of the mortgagees were petitions, and that the mortgages were made for the purpose of defrauding the other creditors. Twenty of these creditors sought to rescind sale and recover goods on the ground that Mr. Salinger did not intend to pay for the same when purchased. The court, after an exhaustive hearing of the case, failed to see it in the light thrown on it by the defense, and rendered his decision accordingly.

The Louisiana lottery drawing came off to-day.

The skating rink at Bluffton has gone the way of the world.

Daniel B. Nail has sued H. C. Martin and D. D. Bowers on a note for \$100.

Sam Miller left to-day noon for Lafayette, Indianapolis and Danville. He will return Friday.

James Owen O'Connor, the tragedian will open at the Academy on Thursday night. He is said to be great.

Mr. and Mrs. H. G. Wagner are expected home from California sometime during the latter part of this month.

The funeral of John Stoner, one of the first residents in Bloomingdale, will take place to-morrow afternoon from the M. E. church.

Sion S. Bass relief corps will give a business man's dinner and supper at No. 36 Calhoun street Wednesday evening, March 17. Meals 25 cents.

W. H. Dreier will soon commence the erection of a handsome residence on the northeast corner of Berry street and Broadway. H. W. Matson is preparing the plans.

Fred C. Boltz leaves this afternoon on a business trip to New York. Gotham will put on its holiday attire when the ex-councilman from the Ninth ward strikes the island.

The indications for the lower lake region, as reported by the weather bureau at Washington to THE SENTINEL, are as follows: Winds shifting to warmer southerly; light local rains, followed by fair weather.

Don't fail to hear the Hon. M. P. Brady on the "Irish Question," to-morrow evening in Library hall. Mr. Brady is an eloquent speaker and understands the subject on which he intends lecturing.

Billy Sheehan, the Muncie conductor, says that by reason of the strike on the Gould system over one thousand members of the order of Railway Conductors are lying in enforced idleness.

Mr. and Mrs. J. P. Powers, of Toledo, were in the city to-day on business connected with the closing up of the settlement of the Lehman estate, of which Mr. Powers is the administrator. They will return again later in the week.

Hawksworth, the pugilist left for Grand Rapids last night to fix a match with Fred Daily. The latter has a very sore hand, the result of his recent encounter with Fell, but expresses a willingness to meet Hawksworth as soon as he is in condition.

It has been reported to the officers that a woman living near St. Joe toll gate shamefully abuses and beats her little five or six year old boy whenever he does not bring home a certain amount of money as the result of his work as a newsboy, each evening. If the facts are as stated the heartless mother should be given a dose of her own medicine. At least an investigation should be made.

Mary Jones and Fred Bearer were arrested last night in a room on Calhoun street for "unlawful dalliance." They were marched to the calaboose where the male half of the capture put up \$20 apiece for their appearance in police court this morning. The money of course was forfeited, and a New York candy firm will soon wonder what makes "livery," "extra baggage" and "incidents" come so high in Fort Wayne. Both names were assumed ones.

Last evening Constable McCann arrested a man named Dora Piles, and took him into Ryan's court, where a charge of drunkenness was preferred against him. Piles is a teamster in the employ of Ryan, the truckman, but is charged by his wife and two other witnesses with having been drunk since last Thursday. The wife also charges that he threatened her life at various times, and brandished an ugly looking knife upon various occasions. Piles was very drunk when in court, but swore that he hadn't drank a drop for two days. Justice Ryan could not see it that way, but sent him over for fifteen days.

Dr. Gard,
NO. 13
West Wayne Street. 16-6t

Master Mechanic Morris is at Peru on a tour of inspection.

J. B. Barnes, of the Wabash, is quite at his residence at Springfield.

Wabash engine No. 1213, left the shop to-day after a thorough overhauling.

The Pittsburg pay car will help the boys to celebrate St. Patrick's day to-morrow.

"The mice will play when the cat's away." Patrolman Humbrecht is on the sick list.

Frank Tyrrell, general foreman of the Wabash shops, has returned from Springfield, Ill.

The county commissioners are out on a bridge inspecting tour to-day. They adjourn to-morrow.

Miss Lizzie Hellings, daughter of Fred Hellings, the ice dealer, is confined to her room by reason of sickness.

John M. Kelsey and Dorilla Fleming, and Samuel Menskey and Tillie Weiss have been licensed to marry.

Mrs. H. Hirsch and

The Fort Wayne Sentinel.

ESTABLISHED 1833.

TUESDAY EVENING, MARCH 16, 1886.

PRICE THREE CENTS

WORSE!

A New Strike All Along the Line.

People Afraid to Call Their Souls Their Own--Bad Condition of Affairs.

Eight Hundred Railroad Workmen Struck --Drinking Heavily and Arming Themselves with Clubs.

THE GOULD STRIKE.

Texas People Afraid to Call Their Souls Their Own.

By Telegraph to THE SENTINEL.

FORT WORTH, Texas, March 16.—The Knights of Labor have the upper hand here. The boarding houses and hotels which accommodate the men who take the strikers' places, are being boycotted, even the butchers refusing to sell them meat. John Tagart, a boarding house keeper, was boycotted yesterday. The waterman refused to sell any more water to him. His landlord ordered him to vacate the house yesterday. Some poison was thrown into Tagart's water barrel and one married woman and two little girls were poisoned and now lie in a critical condition. The people here are afraid to call their souls their own.

NO SETTLEMENT LIKELY.

ST. LOUIS, March 16.—Hopes for a settlement of the strike on the Gould southwest system seem no nearer realization this morning than since the knights laid down their tools and ceased work, and the fact that the company did not attempt to start any freight trains yesterday is explained by a desire to conform to all legal requirements before making the effort. Application was made yesterday for police protection and it is expected that an attempt to move freight will be made to-day.

DENISON, Tex., March 16.—A petition is circulating for a meeting to pledge support to the officers of the law in case they are called on to protect property.

DRINKING HEAVILY AND ARMED WITH CLUBS.

CHICAGO, March 16.—The Evening Journal's Clinton, Iowa, special says 800 track builders of the New Chicago, Burlington and Northern railway have struck. They compelled the engineers and firemen of construction trains to leave their cars. The company is paying off the strikers and they are drinking heavily and are all armed with clubs.

JOINED THE STRIKE.

MARSHALL, Tex., March 16.—Thirty men brought here yesterday to work in the shops claimed to have been deceived and joined the strikers.

ARMING THE OFFICERS.

GALVESTON, March 16.—A special from Shreveport says that United States Marshal Regan sent a request to railroads to purchase a number of Winchester rifles for his deputies. Several were purchased last night.

FAILED TO GET OUT.

ST. LOUIS, March 16.—An attempt to send out the Kirkwood accommodation this morning failed, the firemen deserting the engine before it was attached to the train, and the engineer returned it to the round-house. No attempt has been made to resume freight traffic. No strike occurred among the dissatisfied switchmen at East St. Louis.

WE REPLIED "STRIKE!"

CHICAGO, March 16.—Vice-President Potter of the Burlington and Missouri railway, having been telegraphed by the striking Knights of Labor that the Knights on the Burlington would strike if his road did not stop doing business with the Missouri Pacific. He replied "strike!"

THEY ARE ONE.

OMAHA, March 16.—Knights of Labor on the Missouri Pacific here are out, and no freight trains are moving on the Nebraska division.

REAL ESTATE TRANSFERS.

Olds Bros., real estate agents, room No. 8, Foster block, report the following recorded real estate transfers:

Henrietta Schmidt to John C. Lehmann, by warranty deed, part of lots 1 and 2, Phillip's addition.

The morning papers don't seem to be particularly struck on the Salvation Army. The Salvationists will find Fort Wayne a pretty tough town.

Sprains and bruises are cured by St. Jacobs Oil, the conqueror of pain.

YOU CAN'T HURT ALFRED! A Wild Eyed Western Correspondent Calls Him a Mugwump.

The Washington correspondent of the Las Vegas, New Mexico, *Optic* evidently don't like our distinguished fellow townsman, the Hon. A. P. Edgerton. In a recent communication to his paper he paints the following picture:

"An interview with Mr. A. P. Edgerton, of the civil service commission, made me hot. He went on to say that when in congress from Ohio, back in the forties, no applicant for a position in the departments, secured his assistance or encouragement. In his judgment a young man had better go west. Then he flung in several sentences, or the reporter did for him, comparing the departments to cormorants, or something of that sort, feeding upon the lives of the employees. Mr. Edgerton is a domineering mugwump."

I remember standing upon the south steps of the interior department one day last spring with Vice-President Hendricks when he said to me,

"While at the head of the land office under President Pierce, I never turned an Indian away who applied for a position. I invariably provided for them."

"How did they turn out?" I asked.

"As well as in any other clerical service," he answered. "All the talk about the departments having a blighting or enervating influence upon employees is over stated. It is safe to state that as large a per cent. of them do well, or succeed in what we term 'getting on in the world,' as the same number of persons engaged in similar callings.

There are gentlemen of scholarship, property and influence in every section of the country whom I have assisted." On another occasion, speaking on the same subject, Mr. Hendricks said that the recollection of his life, affording him the most pleasure, was having assisted young men. Mr. Hendricks, now that he is gone, the country realizes, was a mirror of generosity in the way of extending a helping hand.

Mr. Edgerton is a clever, faultlessly dressed, venerable gentleman, with a rather college professor cast of countenance. As aforesaid, along back in the forties, he represented an Ohio district in congress. After serving one term he retired from public life and took up his residence in what was then the back woods. Mr. Edgerton became a citizen of Fort Wayne, Ind., and a large holder of wild lands. This really, by virtue of other people's labor, gradually enhanced in value and Mr. Edgerton after awhile got to counting his wealth by the hundred thousand. He was born of rich, but honest parents. In the beginning they trained him up in college. He is a perfect master of syntax and by measuring the shadow can cipher out the height of a tree. He can figure things and straighten out the moods and tenors of a sentence, however complicated. Mr. Edgerton was well married in his youth, and happily fathered in his mature years, of large influence in the neighborhood in which he resides, perhaps thanks God that he is not as other men—low-down fellows whose education was neglected and who can find no congenial company out of the saloons. The son of one of Mr. Edgerton's renters might loose but little gathering on to the civil service.

WHAT WE HEAR.

The News of the Neighborhood Gathered Here.

Clark county farmers have commenced sowing oats and planting potatoes.

Martin Edin, of Anderson, died from injuries received by being gored by a bull a week ago.

District Attorney Lamb has gone to Washington to look after the confirmation of his nomination.

The Sarven wheel works, at Indianapolis, employ three hundred men, and are running eleven hours a day, at eleven hours' pay, with more orders than they can fill.

At Columbus Edley Tooley, a man forty-five years of age, while in a state of intoxication, fell from a high embankment into the river, near the water works, and was drowned.

Slinbal Julian, an uncle of Judge J. B. Julian and Hon. George W. Julian, died at Cudl, Henry county, last Friday, at the age of ninety-four. He was a native of North Carolina.

Three Hanover students attempted to come to Madison in a skiff Saturday afternoon, but the boat was swamped. After clinging to the frail craft, with only their heads above water for nearly

an hour, they were picked up by the steamer Fleetwood and brought to Madison. It was a narrow escape from drowning, as the river was very rough.

George W. Pate, a township trustee, who reported he had been waylaid and robbed at Rising Sun of \$2,500, is said to be deeply in debt, and an investigation of the alleged robbery will be made.

The residence of Hon. H. S. Biggs, of Warsaw, came very near being the scene of a fire at about noon yesterday. Quite a hole was burned in the roof, but fortunately the flames were subdued before much damage was done.

The two-story frame residence of Rev. E. A. Hoos, situated just west of the city limits of Kokomo, was burned Saturday. The fire originated from a defect in a fuse. Mr. Hoos estimates his loss at \$2,000; insured for \$1,200.

Mrs. Mary Coulter, whose maiden name was Perry, and who claims relationship with Commodore Perry, is now living in Russiaville, Howard county, and is said to be 116 years old. She is said to have been born in April, 1770.

Sam Archer, the last of the gang arrested, is said to be the worst of the lot, and almost every crime in the calendar is laid at his door. He has a brother in the house of refuge, and a brother and sister in jail at Paoli, charged with stealing.

Mrs. Belle Evans, a young married woman at Lafayette, suddenly became insane. In one of her freaks she conceived the horrible idea of offering a sacrifice, and seizing her four month old infant, undressed it and was about to proceed to carry out her intention when the fortunate arrival of her father put an stop to her plans.

The late Hon. Oliver P. Morton said in the senate once: "Therefore, sir, all these constitutional arguments denying to the president the power of removal, and insisting that that power is vested by the constitution in the senate and president jointly, are of no more importance than a mere display of Chinese fireworks in the presence of a real battle."

Dr. Munhall, of this state, but at present in Oregon, relates that while on the steamer, just before arrival at the dock, one man, speaking to another said: "Well, my friend, we shall arrive in Portland just in time for you to go to church." "Oh," said the other, "I do my church-going by proxy." The doctor then spoke up and said: "Yes, and you'll go to Heaven by proxy, also."

Egg socials are becoming popular in Indiana. Every young lady brings an egg along, writing her name on it. Each young man draws one of these eggs out of a bag, and must act as an escort for the young lady whose name is inscribed on the egg he draws. When the young men compare notes, such remarks as these may be heard: "Say, what luck did you have?" "Did ab? Gosh, blame the luck, I drew a stale one. My girl is homelier than a hedge fence." "Oh, but didn't I pull a fresh one, though? She's the prettiest girl in the whole house," etc.—Richmond Palladium.

The most annoying nuisances in the world are those people who boast that they always say just what they think, says the Richmond Palladium, and they lie when they make such a boast. There is no more use in telling a man he is an idiot because he is one, than in eating mud because there is mud. These say-what-they-think people are easily analyzed. They are composed of four-fifths of conceit and one-fifth of common sense, and the latter is buried in the former. It is not deceit to speak pleasantly to a fool or to one whose conduct is displeasing. It is courtesy. A few Richmond people might ponder over this.

Capt. DeWitt Wallace, of Lafayette, has written a new novel. The book, which is pronounced a meritorious production, in fact, away above the average by those who have been fortunate enough to see it, is destined to produce a mild sort of sensation in Lafayette, where many of the characters portrayed under fictitious names, of course, will be easily recognized, as portraits of a number of citizens, some of whom will be greatly flattered by the likeness, and others, it is claimed, will be inclined to look upon their "counterfeit present" as quite the reverse of flattering.

No doubt the book will meet with a large sale there, and be read with an unusual zest.

Less than one bottle of Athelphorus completely cured me of rheumatism, and I have not had the least indication of a return of the painful disease, the cure being perfect. I regard it as invaluable. Rev. C. Hartley, Huntley, Ill.

The Sunday school workers of Fort Wayne should not fail to attend the meeting to-night.

Mr. George E. Crall, of San Francisco, California, is in the city visiting friends and relatives.

WIDOWS

Pensions Increased to \$12.00.

The Ways and Means Committee Report in Favor of Morrison's Lumber Bill.

Oberly, of Illinois and Lyman, of Connecticut, Appointed Civil Service Commissioners.

WASHINGTON.

Morrison's Tariff Bill Under Consideration.

By Telegraph to THE SENTINEL.

WASHINGTON, March 16.—The committee on ways and means in considering the Morrison tariff bill, agreed to make provisions as to lumber, by a strict party vote—eight to four republicans voting negative.

The senate passed the bill to increase the pensions of widows and dependent relatives from \$8 to \$12 a month. It now only requires the signature of the president to become a law.

HOUSE.

The house committee on foreign affairs, by a vote of 7 to 6, postponed the consideration of the Monroe Chinese bill and will, instead, take up the president's message, recommending the payment of indemnity to China for outrages perpetrated on Chinese subjects in this country.

Brown, of Indiana, offered a resolution for the investigation of the charges of corruption in connection with the appropriation for the Jeffersonville levee. Adopted.

A bill was introduced by Mr. Townsend to increase the pensions of persons who have lost an arm or leg. Also, one by Mr. Byram granting to the widow of Vice-President Hendricks one year's salary of his office, less the amount paid him in his lifetime.

APPOINTMENTS.

Two new Civil Service Commissioners Appointed.

By Telegraph to THE SENTINEL.

WASHINGTON, March 19.—The president to-day sent these nominations to the senate: William L. Trewham of South Carolina, now a civil service commissioner to be comptroller of the currency vice Henry W. Caumon, resigned; John H. Oberly, of Illinois, to be civil service commissioner vice Trewham; Charles Lyman, of Connecticut, civil service commissioner, vice Dorman B. Eaton, resigned.

ATTENTION, FISHERMEN.

A gentleman by the name of Bress, who lives near Defiance, Ohio, says fish are so plentiful at the large dam near that city that if you drop a dip net in the water and leave it remain ten minutes, it is about impossible to raise it out of the water on account of the fish it will contain. He says that if the people of Fort Wayne would compel the owners of the Defiance dam to comply with the law, and erect fish-ladders and the people who own the dams at or near Fort Wayne would do the same, the river would be full of fish. Before the dams were erected the Maumee river was full of fish, and no better fishing grounds could be found anywhere. We hope our fishermen will do something in this matter. Some lawyers at Defiance could be employed for a small amount, to see that the law was enforced. Ohio, like Indiana, has a very strict law, and if it was only enforced we would not have to go away for good fishing.

Miss Katie Hogan, who died on the 13th inst., at the age of eighteen years and eight months, was a daughter of Michael Hogan, deceased, and Catharine Hogan, and a niece of Timothy Hogan, ex-commissioner from the Sixth ward, and also ex-commissioner of Allen county. She was a very obedient and affectionate daughter, loved and respected by all who knew her. She died as she lived, a devout Catholic, after receiving all the consolations and sacraments of the church. Her funeral, which was largely attended, took place from the cathedral on the 15th inst., at 9 o'clock a.m., where High Mass was celebrated. May she rest in peace.

C. W. Rollins will re-embark in the saloon business in a few days. He finds the skating rink business slim, and he will use the rink for a saloon and billiard hall.

Dan Hays, of Fort Wayne, and John Hays, of Chicago, are visiting relatives and friends in this city.

We learn that the teachers of Madison township had another interesting and well attended meeting last Saturday at the school building in the center of the township.

The Sunday school workers of Fort Wayne should not fail to attend the meeting to-night.

Mr. George E. Crall, of San Francisco, California, is in the city visiting friends and relatives.

AN OUTRAGE BY A TRAMP.

On Sunday morning a seedy looking tramp called at a residence on Erie street and asked for his breakfast. The lady of the house was alone at the time, her husband having just gone out to the wood house, which fact was unknown to his trampship. The knight of the road was handed a piece of bread and butter, which he indignantly threw on the floor at the lady's feet, and demanded a warm meal. At this stage the husband entered the house and seeing the lay of matters, sailed in and in less time than it takes to tell the story, the filthy creature was measured his full length on the floor, after which he was promptly kicked into the street. These vagabonds make their headquarters in the old brick factory during the night, and during the day go forth, after the men of that section have gone to work, to commit depredations and frighten women and children. The police should visit this den and drive them out with hickory switches.

GOOD BYE, JOHN!

There is a rumor to the effect that Col. John C. New, the veteran editor of the Indianapolis Journal, says the Chicago News, contemplates retiring from journalism.

He has been in active professional and political life for half a century and is now anxious to seek repose and recreation. This has been his earnest desire for several years, and it was emphasized when the republican party was defeated in the national campaign of 1884. Col. New has been wishing to purchase a plantation on the James river in Virginia; a retired country life is now the height of his ambition. He has been practically out of the harness for more than a year, having intrusted the conduct of his paper to Maj. Halford and his son, Mr. Harry New.

MONROEVILLE ITEMS.

By Telegraph to THE SENTINEL.

Politics is on the hop and candidates are bobbing up.

The schools of Monroe township are all closed with the exception of two.

John Rose has just received an imported Norman stallion, which he says cost \$1,500. John is a celebrated horseman and the owner of the once famous trotter, "Billy Rollins." Mr. Rose had "Billy" on exhibition at the last Allen county fair, but on account of his extreme age he was not entered to compete in the races.

A. B. Mondorf has moved his saloon in the Brantner building on South street and A. Martin now occupies the building made vacant by Mr. Mondorf. Mr. Martin has given up the position as landlord of the Indiana house and will now make the bakery business him.

George Bradberry, trustee of Monroe township, is making preparations to build an elegant frame residence on his place in the west end of town.

Madison township will have no democratic caucuses, as the chairman of the township democratic committee disapproves of it.

Rev. Bicknell will deliver two of his popular lectures on temperance topics at the M. E. church next Friday and Saturday evenings.

There is a prospect for two new brick business houses to be erected in our town next spring. There is not one vacant store building in our town at present which causes the necessity of building.

A little daughter of Jacob Wagner, living north of town, was badly burned last week while playing in a clearing where there were some logs on fire. Her recovery is doubtful.

The business appearance of our town at present has a fair prospect of looking up in the spring. The factory, which has been at a standstill for some time past, has again resumed work. The railroad company wants 45,000 ties from this point and other products brought here bring a fair price, thus giving us a bright aspect for a booming business year.

C. W. Rollins will re-embark in the saloon business in a few days. He finds the skating rink business slim, and he will use the rink for a saloon and billiard hall.

Dan Hays, of Fort Wayne, and John Hays, of Chicago, are visiting relatives and friends in this city.

We learn that the teachers of Madison township had another interesting and well attended meeting last Saturday at the school building in the center of the township.

PRINCE OR LIGHT.

Monroeville, March 22, 1886.

"You trouble me—I am not in the vein," he said when invited to make a Fourth of July oration. But he bought a bottle of Salvation Oil, and the national holiday heard from the eagle.

"I guess that must be the reason,"

sighed the good woman for the second time, "but if he was here now he would have a chance to sell his wheat before the bottom tumbled clear out of the market."

Then both sighed, and Mr. J. wrote a postal to John to come to town right away.—*Merchant Traveller.*

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and whiteness. More economical than the ordinary kinds, and can not be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall St., N.Y. may 2d day.

THE FASHIONS.

An Interesting Letter from Jenny June on the Prevailing Modes.

TULLE SKIRTS AND TOILETS.

Inexpensive Spring Outfits—The Thrifty Woman's Way—The Ulster and the Jacket.

Of late the low bodice has been restored to almost its old supremacy in evening toilets. It is becoming as absolute "full dress" for ladies as the "swallow-tail" coat for gentlemen; and the majority are cut "round," which was all very well when the shoulders sloped off over the arms; but is not at all becoming now that the sleeves are brought up to the top of the arms; and the distance annihilated between it and the edge of the bodice.

Tulle skirts and toilets have been heretofore mainly confined to the young ladies of a family, but English influence is seen in the dark tulles, plain and embroidered, with velvet and satin bodices, which have been worn even by chaperones. These tulles are often made over satin; the other shades over pink, tea rose, over canary, black over orange or nasturtium, the bodice of satin matching the foundation skirt, and rarely displaying any ornament save a row of colored pearl beads upon the edge and fastenings of the same or a group of feathers upon the shoulders. The skirts are made skirt upon skirt and are draped off from the front, not looped up, in all sorts of pretty, graceful ways, with few flowers, however, and not much in the way of ornamentation except feathers with Rhine stone clasps or beaded agates. Some ladies take the cheap tinselled ornaments sold at the fancy stores for the decoration of plaques and baskets and apply them; giving their toilets the appearance of perambulating scrap-holders.

THE USE OF BRAIDS

is the most curious feature of the time—it would hardly be correct to say of the season—for they have been used for several seasons past, though not until lately in the "rosary" forms; and they will be still more pronounced in the season to come. The prevailing styles are rosary and pearl beads; the former colored in every shade to match millinery as well as dress fabrics; the latter colored also, but not to the same extent, as the natural colors and varying still maintaining the lead. The use of them is likely to be much more extensive than beaded embroidery trimmings, because these latter are costly, and the larger beads can be employed effectively in outline and other ways, by ladies who have not time or skill for embroidery. Semi-precious woods are being sought for, on account of their blending of color and close graining, in the making of fine rosary beads and the new cherry buttons, some of which have made their appearance upon rich imported costumes. But the difficulty is to find tools or machinery to cut them. Nothing more beautiful than the agatized and jasperized woods recently discovered in this country can be found in the world, and there are forests of them. But so far the wood has been sent to Oberstein, in Switzerland, to be cut, turned and made into objects of use or ornament; because we have not the requisite machinery or workmen here. There are fortunes, however, in the utilization of these beautiful woods for clasps, buttons, beads, writing-table knick-knacks, and other accessories.

EXPENSIVE SPRING OUTFITS.

There are plenty of opportunities for the acquisition of a wardrobe costing very little money, by those who know how to take advantage of them. Materials were never so low in price as now; and the variety has become so great, the confusion of ideas so universal, that even the conventional woman who always wants the "latest" thing gets mixed, and finds it hard to distinguish between what was the novelty of yesterday and what the novelty of to-day was the old thing of yesterday. Under these circumstances, with the very best intention of sacrificing herself to cost and fashion, the conscientious lady sometimes finds herself pleasing herself in an economical and highly satisfactory way. Doubtless she feels that such a purchase carries a sense of inadequacy to her position and principle, for when it is admitted she always confidently says: "You would not believe it, my dear, but I only paid so much, and, really, it is quite a good thing, don't you know?"

THE THRIFTY WOMAN'S WAY.

But this is not the style of the truly thrifty and bargain-loving woman. She carefully studies styles in order to make the costume—the material for which will cost her from \$10 to \$15—look like an "imported" one at from \$60 to \$75. She is always spoken of as a woman who "dresses a great deal" because she has a bonnet to match every suit and a dress proper for every occa-

sion. The actual cost of all her bonnets is not, however, that of one bought at a fashionable millinery establishment, for she utilizes scraps, buys her frames and a little good, effective trimming and makes them herself. All the materials for a spring and summer outfit, recently purchased in anticipation of a journey and a visit, came within \$50, and may be roughly detailed as follows:

16 yards black satin Lyon.	\$18.75
4½ yards embroidered trimming (a bar-gain).	5.88
15 yards beige (45 cents).	5.75
Silk trimming.	1.50
12 yards blue, Scouting-horn (45 cents).	4.80
White embroidered pattern dress.	7.50
10 yards brown figured damask (a bargain).	2.00
A black Spanish lace shawl.	3.00

\$46.50

FIVE HANDSOME COSTUMES.

This will give the owner practically five costumes; the only one not complete being the dolaine, which has a pretty cowslip figure and will be used for the house over a brown silk skirt already in possession. The silk dress will be really handsome and accompanied by a small visor or mantle to match. The trimming is much richer than lace and the additional cost will be only that of fitting and stitching some portions. The black lace shawl will be employed for the street, with gingham in two shades of gray-blue; and with this will be worn also a black straw hat or bonnet trimmed with feathers taken off a winter bonnet. A brown straw bonnet—cost \$1.75—will be purchased to wear with the beige and an ulster for traveling; and a black lace bonnet made to wear with the silk, the materials being already in possession; in fact, being real, having done duty two summers and upon two different frames previously.

"It is so easy to make up summer clothes," remarks the purchaser of these goods, when displaying them to a friend, "and especially now, when skirts are less complicated and trimmings are ready to your hand. The only dress that will give me any trouble will be the gingham. But I want to lay in an infinite of small tufts, so as to bring the lines close together; and though it will not be difficult, it will take time and be tedious work." "Just the work it is difficult to buy at any price," remarked the friend. Cottons are very cheap this spring, and 40 cents per yard may be considered unnecessarily high; but the prices that are given are those which were paid, and the Scotch zephyr ginghams always retail at the same price. Black silks are offered very low just now, the popularity of the surah, mervilleux and rhadames having seriously interfered with the faille and gros-grains, which formerly had the field nearly all to themselves. No better silks need be desired than the American surahs, valentines, ottomans, and brocades upon ottoman grounds. The "velontines" are ottomans with a somewhat less heavy cord and a soft, dull satin finish. The wear is excellent and the appearance greatly superior to an ordinary faille. The new dotted surahs are an American manufacture; and great care is taken in the finish and in matching them with plain silks.

THE ULSTER AND THE JACKET

have quite resumed their sway over the "between-season" mind. The spring ulster is made of elastic cloth, is close-fitting, but open, or filled in at the back with straight folds, close and compact, but not flat. Above this, cords or an ornament of some kind is placed. The newest buttons are carved wood, but if they are handsome and modern it makes little difference whether carved wood or metal; or smoked pearl are used. The jackets are plain but well cut and lined; and display buttons rather larger than the ulsters. Braided jackets always fail of appreciation. Many have been the attempts to make them "lead" the market, but they always sink into second-rate or third-rate; and the plain designs, good in cut, genuine in material, and with rich interior facings and buttons, take easily the position of superiority.

Among imported garments the "eling" cape, shaped and held in at the back, has made its appearance, and is so simple, stylish and easily adjusted that it ought to become a favorite. It was very fashionably worn in Paris last year, and will doubtless be so again; for fashions always last two years, at least, abroad; and if it could be reproduced here at something like French cost it would certainly become a favorite. What was said of outdoor jackets may be repeated, with truth, of "jerseys," which, just now, occupy a rather anomalous position. Great sales of these garments have taken place, at which prices fell far below the cost of production. A great effort has been made to diversify them; to give them the appearance of a stylish little basque. They have been cut short and pointed, and with small lapels. They have been braided, embroidered and edged with heads; and yet they are left in heaps upon the shelves. For the plain, unvarnished, old-fashioned kind, there is steady demand for growing girls and for ladies of good figure who have a skirt to wear out at home; but the attempt to put them in the place of the dress basque or jacket has proved an absolute failure; and the lesson must have cost some people a good deal of money.—Jenny June.

Fashion Notes.

VELVET will be largely used for trimming wool and silk as well as cotton dresses.

SENDING VESSELS OVER NIAGARA FALLS.

There have been three such instances. The first was in 1827. Some men got an old ship—the Michigan—which had been used on Lake Erie, and had been pronounced unserviceable. For mere wantonness they put aboard a bear, a fox, a buffalo, a dog, and some geese, and sent it over the cataract. The bear jumped from the vessel before it reached the rapids, swam toward the shore, and was rescued by some humane persons. The geese went over the falls, and came to the shore below alive, and, therefore, became objects of great interest, and were sold at high prices to visitors at the Falls. The dog, fox and buffalo were not heard of or seen again. Another condemned vessel, the Detroit, that had belonged to Commodore Perry's victorious fleet, was started over the cataract in the winter of 1841, but grounded about midway in the rapids, and lay there until knocked to pieces by the ice. A somewhat picturesque instance was the sending over the Canada side of a ship on fire. This occurred in 1837. The vessel was the Caroline, which had been run in the interest of the insurgents in the Canadian rebellion. It was captured by Col. McNabb, an officer of the Canada militia, and by his orders it was set on fire, then cut loose from its moorings. All in flames, it went glaring and hissing down the rapids and over the precipice, and smothered its ruddy blaze in the boiling chasm below. This was witnessed by large crowds on both sides of the falls, and was described as a most magnificent sight. Of course there was no one on board the vessel.—*Inter Ocean*.

Pure blood is absolutely necessary in order to enjoy perfect health. Hood's Sarsaparilla purifies the blood and strengthens the system.

Fish for Lenten Season.

New Smoked Halibut, 12¢ per pound. Extra Mackerel, 15¢ per pound. Family Mackerel, 2¢ each.

Holland and Scotch Herring, 31¢ per kg.

Prepared Codfish 5 and 7¢ per pound, 10-lb. Foot House.

Dr. A. C. HORN'S CERTAIN GROUP CURE.

This preparation, a private and original prescription, was extensively used in an untried practice for many years, with perfect success. It is now in use by Dr. C. C. H. Horn, of New York. Having thoroughly tested and tried this remedy, he had no hesitation in pronouncing it positive, swift and sure to cure Croup in its most aggravated form, when administered promptly and according to directions. Its powerful and direct effect upon the lungs, its rapid action, and its completely invaluable to those living at a distance from a physician—as it is seldom necessary to call in professional aid, if the "Certain Group Cure" is near at hand. While powerful and effectual, it contains no opium in any form, nor any drug which can have a depressing effect upon the system. The certain and definite infant cure taken in, directed with perfect safety. Price \$1.00. For sale by all first-class druggists, wholesale and retail.

If you are low spirited and have no appetite get a bottle of Nichols' Bark and Iron. It is the safest and most effective Iron Tonic ever presented to the public.

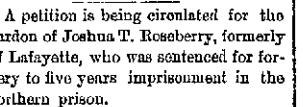

I think Ely's Cream Balm is the best remedy for earthen I ever saw. I never took anything that relieved me so quickly and I have not felt so well for a long time. I used to be troubled with severe headaches two or three times a week, but since using the balm have only had one and that was very light compared with the former ones.—A. J. Alcorn, agent U. P. Ry Co., Eaton, Co.

I think Ely's Cream Balm good for earthen of long standing. M. N. Lasley, 1832 West Chestnut St., Louisville.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle. Jan. 19—today.

A petition is being circulated for the pardon of Joshua T. Rosberry, formerly of Lafayette, who was sentenced for forgery to five years imprisonment in the northern prison.

THE GREAT REGULATOR

PURELY VEGETABLE.

Are You Bilious?

The Regulator never fails to cure. I most cheerfully recommend it to all who suffer from Bilious Attacks or any Disease caused by a disordered state of the Liver.

Kansas City, Mo. W. R. BERNARD.

Do You Want Good Digestion?

I suffered intensely with Full Stomach, Headache, etc. A neighbor, who had taken Simmons Liver Regulator, told me it was a sure cure for these diseases. I took it and was soon much better, and in a week or two I was as strong and healthy as ever I was. It is the best medicine I ever took for Dyspepsia.

RICHMOND, Va. H. G. CRENshaw.

Do You Suffer from Constipation?

Testimony of Hiram Warner, Chief Justice of Ga.: "I have used Simmons Liver Regulator for constipation of my horses, created by a temporary derangement of the Liver, for the last three or four years, and always with decided benefit."

Have You Malaria?

I have had experience with Simmons Liver Regulator since 1865, and regard it as the greatest medicine of the times for disease peculiar to material regions. So good a medicine deserves universal recognition.

Rev. M. B. WHARTON,

Cor. Secy Southern Baptist Theological Seminary.

THERE IS BUT ONE SIMMONS LIVER REGULATOR!
